

Open doors

Open doors is a creative workshop especially for autistic children and children with other social communication issues, their families and carers. We open our doors early so that you can come enjoy and explore art together as a family.

This months session is: Saturday January 20th, 9.15– 12.15pm

Next months will be: Saturday February 17th, 9.15— 12.15pm

Please feel free to call Katy McCall on 0161 235 8869 if you have any questions or would like to find out more.

Your Journey through Manchester Art Gallery, What to expect:

When you arrive at the gallery, walk between the pillars and through the front door.

From the entrance hall follow the **PINK** post-it-note trail to the Dutch Gallery on the 1st Floor.

Using the magnifying glass to investigate the paintings can you find all of the squares from the paintings?

Once you've found the squares make your way through to the Clore Art Studio where there will be various activities and a **Sensory Installation** all on a still life theme. Just follow the **ORANGE** post-it-notes and get stuck in.

Also remember that there is a **quiet room** available if you need it. If at any time you need a moment out, just let someone know and we'll show you where it is.

Feel free to stay in the Clore Art Studio for as long as you like! You can access it whenever the gallery is open.

Please be aware that the gallery will open to the public at 10am.

For directions and more information about our education and exhibitions programme please visit www.manchesterartgallery.org
