

The Big Battery Hunt 2018!

St. Wilfrid's CofE Primary School have joined the Big Battery Hunt 2018! Over 20,000 tonnes of batteries end up in landfills a year - the same weight as 4,000 elephants! All of these can be reused/recycled: what is better for the Earth is better for us. The school council have worked very hard to create a battery collecting box for each child in school, and these have been sent home. They can fill the boxes with any used (emphasis on the used!) batteries at home - this may take them a while, but do not worry as there is no time limit - St. Wilfrid's will be recycling batteries from this point on. When they bring their box in, they will give it to their school councillor who will count them and put them into our new giant battery bin. It is now in the foyer and it is rather impressive-looking. As an extra incentive, there will be a prize for the class who collect the most. This is just a really lovely way to get the children involved in recycling and have them show pride in a collective effort, as well as reduce our carbon footprint.

Saturday 30th June

12.00 –3.00pm

- **Teddy donations for adopt a teddy – time to spring clean!**
We need as many as possible for our biggest fair yet.
- **Meeting on Tuesday 24th April at Longley Cricket Club at 7.30pm.**
If you can come please do, we need your support. If you cannot make 7.30pm but have some ideas we will be at school at 2.00pm before pick up.
We would love your input!
- **Volunteers for the fair are always welcome, please let us know if you can help.**
